

# ferencing System ST Mobile Conferencing System

from ST Concepts, Inc.

Given today's ever-changing educational, government, and corporate climates, technology solutions must be flexible. This is why ST Concepts, a leader in distance learning solutions, developed the ST Mobile Conferencing System. The ST Mobile Conferencing System allows organizations to move their video conferences from room to room as necessary, with no complicated setup. This system is cost-effective for any organization who needs the power of distance learning or conferencing in multiple rooms, but have a limited budget.

Simply roll in the cart...plug it in...and  
make your subject come to life!
